Script-Fast, Inc. to merge with Electronic Prescription Provider, RxNT

Script-Fast, Inc. is merging with the leading electronic prescription provider, RxNT. The union of these two electronic prescription providers will arguably generate one of the largest independent electronic prescription company's in the country.

The 2,300 physicians currently enrolled in Script-Fast's electronic prescription system will see a seamless transition into the RxNT system. The transition to RxNT will allow Script-Fast prescribers to continue to experience many of the values they have come to enjoy from electronic prescribing including patient-specific prescription plan eligibility and formularies as well as gain product enhancements included in the RxNT system such as real-time patient medication history, drug and food interactions, and interactive wireless PDA and tablet capabilities.

"Script-Fast chose to adopt RxNT's electronic prescribing platform because of their product reliability and enhanced features," says Curtis Hess, former President of Script-Fast. Curtis Hess will take the role of Chief Operating Officer of RxNT effective immediately. "We are excited about the opportunities stemming from the merger and feel Mr. Hess will be a valuable asset to our team", says Randy Boldyga, President/CEO of RxNT.

RxNT is a national electronic prescription provider located in Pasadena, Maryland. RxNT can be found on the Internet at www.RxNT.com. For more information about group membership agreements or RxNT, please call Angie at (410) 255-7600 x13 or email Angie@RxNT.com.
